

Anno scolastico:
2017-2018

This is the enthralling motto of the international Model United Nations conference held at FAREL Academy in Amersfoort, the Netherlands. A delegation of 7 students from ISIS Malignani joined in from 8th to 11th February 2018 accompanied by the MUN Director Donatella Savonitto.

Model United Nations (MUN) is a simulation of work done within the United Nations. Students take on the role of delegates for nations in different UN bodies and discuss issues the world faces on a daily basis. Thousands of middle school, high school, and college students across the country and around the world participate in Model United Nations, which involves substantial researching, public speaking, debating, and writing skills, as well as critical thinking, teamwork, and leadership abilities.

This year's theme was "Our future: sustainability of people's well-being". We worked hard in our teams and we produced interesting resolutions. Our feedback is enthusiastic for the following reasons: we boosted our skills of the English language; we trained our debating and communicative skills in our committees and at the General Assembly; we improved our research method on crucial current issues; we created new friendships lasting a life time!

We strongly recommend the FAMUN experience because of the modern and well equipped Farel Academy building, the dedicated Famun staff (all brilliant and friendly students), the warm welcome of the host families, the fascinating medioeval town of Amersfoort, the extraordinary moments of fun and learning. Let's live our lives animated by the desire to turn our dreams into innovative ideas and inspiring actions! If so, the world is ours!
