

**Anno scolastico:**  
2017-2018

A delegation of Belgian students has recently met our class, 3C LSA Malignani, for an exchange program. We welcomed our guests in front of the Cathedral of Udine on a sunny and warm April day (precisely on 26th).

We arranged 4 mixed nationality groups to go on a guided tour of our beloved city. We introduced the marvellous frescoes of Tiepolo in the Cathedral and we accompanied our Belgian friends to the castle to enjoy a panoramic view of the preAlps and Udine from above. Later on we admired the Venitian architecture of "Piazza Libertà" and the picturesque market square of "Piazza S. Giacomo". Our new friends fully appreciated the historical tour and our friendly presence.

Back to school for lunch in the school canteen we offered some delicious cakes to the Belgian students. In the afternoon we prepared a guided tour of our prestigious technical institute focussing on the incredible exhibition of ARTURO MALIGNANI, the famous aeronautical hangar, the precious museum of computers, the laboratory of biology with interesting live experiments.

Finally, we gathered together in our school modern artistic laboratory ( F.0.6) to watch videos and PPT presentations about teenagers' life in Udine and Waregem: sketches of Italian and Belgian culture, music, habits and silly stereotypes. We showed our typical day at Malignani's school with two awesome videos. This experience was fascinating and inspiring. We wish it lasted longer!
