LITERATURE CLUB

Literature, Women and Science

The relationship between **scientific development** and **gender equality** is vital for achieving the goals contained in the **2030 Agenda for Sustainable Development**. However, even though some progress has been made in the last few years to **promote women's participation in science and technology development**, it is evident that women and girls continue to be excluded from participating fully in scientific progress.

To promote **universal awareness** on the importance of promoting women's and girls' equal access to science, the United Nations General Assembly declared **11 February** as the International Day of Women and Girls in Science in 2015.

Happening a week before the celebration of the **International Day of Women and Girls in Science**, the webinar aims to offer some practical tools that we can use in class to use literature to tell the often untold story of women's tremendous contributions to the development of science and technology.

3rd February 2022 at 16:30
Speakers: Timothy Shaw, Mauro Spicci
Moderator: Donatella Fitzgerald

28th October 2021
16th December 2021
• **3rd February 2022**
8th March 2022

Anno scolastico:

2021-2022

L'11 febbraio sarà la giornata internazionale delle donne nella scienza. Indetta dalle Nazioni Unite qualche anno fa ha lo scopo di promuovere il superamento di pregiudizi e stereotipi di genere che limitano la presenza femminile nel mondo scientifico.

Si segnala, a questo proposito, il webinar Pearson dell'Amazing Minds Literature Club dal titolo "Literature, women and science" giovedì 3 febbraio alle ore 16.30.
